

IMPORTANT CONSTRUCTION INFORMATION

DELIVERY

Please book with our Logistik Tool.

The checkpoint is closed on Sundays:
Trucks are not allowed to drive through the checkpoint.

Logistics hotline: Tel. +41 58 206 5174

Delivery zones/storage areas

The trade fair does not provide any storage areas.
The storage of materials in the delivery zones is prohibited.
Exceptions subject to a charge may be examined by the exhibition management.
Storage areas for empties can be rented at Sempex AG for a fee.

Building in the hall

Floor marking

If no longer visible, please contact the Service Center before setting up, (Tel. +41 58 206 5112).

Construction heights

Must be complied with in accordance with building regulations.
Exceptions can be examined by the exhibition management.
(Height of stands along the hall walls on request).
Hall 1-2 = max. 6.5 m (lower part 3.5 m / 3 m)
Hall 3-6 = max. 5.5 m

Floor loading

Please note the following before planning your project:
Hall 1-2 = unlimited
Halle 3-6 = 1200kg/m²
Entrance hall / foyer = 500kg/m²

Hall flooring

Must be covered with strong film, plastic or pavatex sheets.
Any cleaning costs will be invoiced.
Do not use dry building rubble and unwashed gravel.
Drilling holes of any kind in hall floors, walls or pillars is prohibited.

Electricity

The electrical boxes must always be accessible.
The floor boxes may also be used by stand neighbours.

Ceiling loads

Suspensions and hangers must be ordered exclusively from Messe Zürich.

Vehicle in the hall

Vehicle

Tracked vehicles only permitted with track protection.
Excavator buckets fitted with rubber protection.

Forklift

Riders will only be admitted with the appropriate licence.
Do not ride with raised forks and keep to the speed limit (walking pace). The fair reserves the right to ban drivers.

Cutting Point

Stoneware

Cutting work on earthenware is permitted exclusively on the machines provided on the wet cutting areas (level 0) at the entrance to Hall 1/2, and (level 1) at the entrance to Hall 3/4. Use of the cutting machines is at your own risk.
Please keep the cutting area clean.

Lighting and water

Stand lighting

Winkler Multimedia Events AG is our preferred supplier for stand lighting. The lighting work will be already completed on your first set-up day if you mandate Winkler Multimedia Events AG.

Water installations and filling

Filling/emptying of pools, ponds etc. must be carried out by our partner Steger Haustechnik AG (at a charge).

Attention: Hall floor has various connections to the other floors.
→ Covering with plastic foil is mandatory.

GAS, OXYGEN, OPEN FIRE

Mandatory exemption permit

Work with gas, oxygen or open fire must be approved by the fire police.

Please apply for an exceptional permit for open fires on the stand using the application form.

WASTE AND CLEANING

Waste disposal

Hazardous waste (trees, green waste, humus, building rubble, gravel, sand, stones, etc.) must be disposed of by the exhibitors themselves.

Attention: do not put it in the company rubbish larger quantities of waste and bulky items. It will be disposed of by the hall service for a fee.

Waste containers can be ordered for at the stand after consultation with the hall service.

Cleaning after the exhibition

Excessive soiling or any subsequent cleaning of the stand area, as well as failure to remove the adhesive tape, will be charged to the exhibitor.
